## PREFACE

The following bibliography was compiled to assist lawyers and scholars research agricultural law topics. Twenty-four subjects related to agricultural law in the United States are covered. Under each subject are articles and books. The articles are from law reviews and other legal periodicals. Books included are treatises, handbooks, loose-leaf services, and popular material. Federal government publications are not included. The primary sources were the WILSONDISC Index to Legal Periodicals and the BIP (BOOKS IN PRINT) file on DIALOG on WESTLAW. Additional sources were bibliographies from AGRICULTURAL LAW UPDATE and the National Center for Agricultural Law Research and Information library acquisitions lists. Some books and articles may discuss laws which have been repealed, but we have included them for purposes of scholarly research. The titles were published in 1985-1992. For a compilation of earlier titles see Persyn, Mary G. & Tim J. Watts, *Selected Bibliography on Agricultural Law: 1980-1985*, 34 KAN. L. REV. 703 (1986).
